UAT:

Thursday 18 December, 2025 11:00am – 1:00pm (AEDT) - 12:00am – 3:00am (GMT)

Production:

Thursday 15 January, 2026 12:00 pm – 3:00 pm (AEDT) - 1:00 am – 4:00 am (GMT)

1.0.1 Employer Portal Indicative Release Dates

Note that these release dates are subject to change

UK deployments are 2 days later than Australian deployments

Release	UAT	Production
February	Tuesday 20-Jan	Tuesday 3-Feb
March	Tuesday 17-Feb	Tuesday 3-Mar
April	Tuesday 17-Mar	Tuesday 31-Mar
May	Tuesday 21-Apr	Tuesday 5-May
June	Tuesday 19-May	Tuesday 2-Jun
July	Tuesday 23-Jun	Tuesday 7-Jul
August	Tuesday 21-Jul	Tuesday 4-Aug
September	Tuesday 18-Aug	Tuesday 1-Sep
October	Tuesday 15-Sep	Tuesday 29-Sep
November	Tuesday 20-Oct	Tuesday 3-Nov
December	Tuesday 17-Nov	Tuesday 1-Dec

2 User Impact

2.1 Reporting solution

Totals and subtotals have been introduced. When grouping by a column (or columns) a subtotal is automatically shown for all numeric columns that are displayed. An overall total is also shown for these columns.

Grouped by EMPLOYER NAME

Download

Save

Refresh

Given Name	Last Name	Employer name	Total contribution
			\$
		Batch Cancel Co (11)	6,300.00
		Employee Cancel Co (18)	11,100.00
		Add Demo Co (2)	1,800.00
		Totals:	19,200.00

In reporting users can now lookup by product by typing either a USI or ABN for the fund

3 Enhancements

EPRT-21854	As a user cancelling a batch, the current batch data should be automatically rolled back
Description	<p>Currently, employers can cancel a batch after submission. However this does not roll back the data in the batch. We now automatically rollback the member and employee data changed within the batch by using our existing rollback mechanism when the submitted batch is cancelled.</p> 
Reason	The reason for this is that updated or new member details are not being sent to the fund following a cancelled batch
Applies To	<div><input type="checkbox"/> Employee</div> <div><input checked="" type="checkbox"/> Contributions</div> <div><input checked="" type="checkbox"/> Members</div> <div><input type="checkbox"/> STP</div> <div><input type="checkbox"/> Gateway</div> <div><input type="checkbox"/> Reporting</div>
Assumptions	<ul style="list-style-type: none">• The rollback occurs immediately the cancel button is pressed.• The "rollback" part of this change is equivalent to what occurs when a file is deleted.• Any manual changes made in the file will be lost and must be reprocessed in a new file.• This change affects only contribution files—it does not apply to member files.• Users that don't have rights to cancel a batch aren't be able to rollback the batch• Any submissions from the employee portal or review page approvals aren't rolled back• Any responses from a fund (MROR,CTER) aren't rolled back - no submission yet been sent• The rolled back data is not sent to new reporting - only the cancel status.• New reporting will show this as a cancelled batch.• EDX doesn't show cancelled batches• Any new members created in the cancelled batch will be automatically made inactive• The MRR sent date should also be rolled back - this is used to determine whether an MRR is to be sent.• If a member on the file has an MRR sent date/time equal to the file submitted date/time then the MRR sent data for every member in the batch is rolled back to the previous MRR sent date.• The "rolled back" yellow line appears in the audit history after a rollback. All members in the batch are marked as rolled back (even if no change has occurred)• Applies to all contribution submissions (file, ad hoc manual entry, manually key a contribution, reuse manual entry, reuse file)• Registered employers have a cancel batch button - although this is unlikely to be used• Employer's can't uncanceled a cancelled batch
Impact	Fund should start to receive MRRs following resubmission of a file after a cancelled batch. Any newly created members in a cancelled batch will be automatically inactivated.

4 Validation And Rule Changes

No changes

- **Member gets stuck as opt in request approved** - an exempted member who is changed to opt in request approved doesn't get enrolled but remains opt in request approved
- **Member gets stuck at join request approved** - a join request approved EW Member when changed to EJH; status does not change to awaiting enrolment to allow the employee to be enrolled. Member status is stuck at join request approved.

5 Defects Fixed

Various	<div><input type="checkbox"/> Employee</div> <div><input type="checkbox"/> Contribution</div> <div><input type="checkbox"/> Member</div> <div><input type="checkbox"/> STP</div> <div><input type="checkbox"/> Gateway</div> <div><input checked="" type="checkbox"/> Reporting</div>	Various reporting bugs	<div>1. The vertical scroll bar is appearing when there is no need for it</div> <div>2. A default custom report with financial year dates as filter causes reporting to have errors on load</div> <div>3. SMSF records are not displayed when selecting All Products in the payment filters.</div> <div>4. Total contribution amount and member count is showing incorrectly for single batch multiple member scenario.</div> <div>5. The search result should be responsive even when the top title bar is expanded.</div> <div>6. The money fields are not showing the amounts correctly for a single batch multiple payment scenario.</div> <div>7. Money fields for multiple batches are not correctly adding up when grouped by employer, product and status.</div> <div>8. Refund failed report is not populated correctly</div> <div>9. No validation triggered for end date field "on this day"</div>																														
EPRT-23512	<div><input type="checkbox"/> Employee</div> <div><input checked="" type="checkbox"/> Contribution</div> <div><input type="checkbox"/> Member</div> <div><input type="checkbox"/> STP</div> <div><input type="checkbox"/> Gateway</div> <div><input type="checkbox"/> Reporting</div>	Employee.HomeCountry incorrectly sent in other details tuple	Onboard a new employee through employee maintenance. When an employer submits a batch, some extra empty tuples were being sent.																														
EPRT-23496	<div><input type="checkbox"/> Employee</div> <div><input checked="" type="checkbox"/> Contribution</div> <div><input checked="" type="checkbox"/> Member</div> <div><input type="checkbox"/> STP</div> <div><input type="checkbox"/> Gateway</div> <div><input type="checkbox"/> Reporting</div>	Empty dates not handled in employer maintenance	Add a date field to show in summary for employer maintenance, If there are any date fields that are not populated then employer maintenance wasn't rendering/.
